

SUCHETNA

Bareilly Diocesan Social Service Centre

**ANNUAL REPORT
2019-2020**

Our Vision

"A Just Society where all people enjoy the fullness of life"

Our Mission

"To work towards organizing the marginalized sections of society in the area of Bareilly Diocese for their integral development through advocacy and empowerment"

Our Goal

"Integral development of the marginalized in the society"

About Suchetna Social Service Centre

Suchetna (Bareilly Diocesan Social Service Centre) is a registered charitable society, registered under Society Registration Act 1860. It has roots in 3 districts of Uttar Pradesh namely, Bareilly, Pilibhit and Shahjahanpur and in the districts Almora, Bageshwar, Champawat, Nainital, Pithoragarh and Udham Singh Nagar of Uttarakhand state. It has spread its social development activities in 815 villages. The services of Suchetna are made possible through 22 sub centres. Suchetna intervenes in the issues of the target groups (Children, Adolescent Girls, Youth, Women, Men and Children and Youngsters with Disability) of 39 block and 19 Nagar Panchayats and bring about social, economic, educational, political and behavioral changes among them.

Shepherd's Voice

In this annual report, you can read about the many ways ***Suchetna, the Bareilly Diocesan Social Service Centre*** (BDSSC), Contributes to serve humanitarian causes and the environment. The objective is to form stable, peaceful, and prosperous societies. We have been focusing on to help people across the diocese to improve their quality of life. I hope you will take the time to read through our annual report to learn more about the lives we have empowered.

We are committed to the eradication of poverty, education, human rights, child welfare, gender equality, sustainable development, environment safety, women empowerment, capacity building, youth and healthcare. The BDSSC systematically monitors social needs and takes steps to address the most pressing of them by designing and implementing specific programs. The work is not easy, but, when successful, is life-changing and can have a ripple effect for generations to come. With the on going support of our donors, partners and animators, we are ready for the challenges and achievements ahead in 2021.

At a time of great uncertainty due to COVID-19, I am inspired by the energy, resilience, and commitment of our Staff. Following the advice from the government and health Organizations, all of our Staff are practicing “social distancing.” They have moved quickly to adapt to the situations, while balancing commitments to family, friends, and themselves. Our donors and partners have also reached out to us with moral and financial support, recognizing that some projects will inevitably change. We thank them for their understanding.

I would like to express my deepest gratitude to Manos Unidas, Caritas India, UKSVK, NEG FIRE, IGHC, Jan Vikas Samiti, and NABARD, for the financial support. Thank you dear donors for making our work possible and for partnering with us. I am also grateful to our Director Rev. Fr. Derick Pinto, Deputy Director Rev. Fr. Ivan Crasta for their able leadership and contribution. My heartfelt thanks go to Rev. Sr. Preethi OSF and every one of our Project Staff and Volunteers for their collaborated efforts to help us fulfil our mission. Indeed, our success has been propelled collectively by the individuals associated with BDSSC.

Thank you for helping us make *Suchetna's* work possible. Our success is the community's success. We look to the future with hope and inspiration.

With my prayerful best wishes,

† Ignatius D' Souza
Bishop of Bareilly

Director's Expressions

I'm pleased to present another Annual Report of Suchetna and it values your staying connected to us, to look at the various activities of the projects, as well as the opportunity to learn more in-depth information.

Compassion towards fellow beings is an expression of what it means to be fully human. Suchetna has its hands as wings to pursue the dreams of others, especially of the poor, underprivileged, marginalized, Women, Adolescent girls and Children, Persons with disabilities and Migrants.

Pope Francis said “The mission that God entrusts to each one of us leads us from fear and introspection to a renewed realization that we find ourselves precisely when we give ourselves to others.” he added again “COVID-19 Pandemic is an opportunity for mission and service to others.” Yes, we are moving ahead amidst light and shadows, hope and despair, health and healing, sickness and suffering, anxiety and courage!

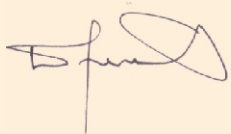

During this Pandemic season Suchetna has greatly realized that it has brought about huge influence on people's physical and mental health, and our social intervention aims to restore the dignity of human being, rather than merely providing basic needs. It has taught us to think differently and to respond creatively and collectively, building on people's strengths. We are called to uphold the dignity of human beings and ensure that the poor are not exploited in their vulnerabilities. This asks for collective thinking, planning and action through an innovative approach.

Much has been achieved despite constraints and limitations, because of the Richness of Experienced, Skilled, Committed and Tireless Suchetna Staff and Volunteers, with the guidance and support of the bighearted Donors and Well wishers and never to forget the support, prayers and blessings of our Bishops, Fathers and Sisters of the Diocese.

May this extraordinary situation of Covid 19 help us to discern God's ways and enable us to find new avenues and means to live in this critical time.

Let us hold our hands together and heal the world and be a beacon of light to all in need.

With gratitude and wishes.

Fr. Derick Pinto
Director, BDSSC

From Corona to Courage

What is your response to my question 'How are you'? Fine.... Okay.... Super.... Moving on. Yes, the world is following social distancing norms, but this should not alienate us from the realities of life, the people we work with, the society we live in and the community we serve. It is also our social responsibility that during the testing times we uphold human dignity and care for one another.

The Pandemic outbreak has forced us to keep Social Distancing, more appropriately physical distancing. But very sorry to say that I never kept up this guideline so far, because, as for me **'Being with the other in Need'** is more important than looking for my own comfort and safety. (Of course with safety measures) I truly believe that **"Helping Hands are better than Praying Lips"** (Mother Teresa). People are living in isolation, ventilation, stress, tension, self-imposed or medically mandated, home quarantined, can be taken as an ideal opportunity to ponder on our journey so far and the future path. As we are passing through a tough phase, let's turn this challenge into an opportunity and try to decipher what nature has been telling us through this crisis. Nature is reminding us to acknowledge with humility, our quintessential equality and interdependency. It's a lesson imparted at a heavy price that will come handy in mitigating global challenges, like climate change as well as in building a better, common future.

The whole world is a family. Today, it turns out to be truer than ever before. I greatly realized how deeply each one of us is connected with everyone else. We are as safe as the care we take of others' safety and sickness, not only of human beings but also of plants and animals. Faced with an extraordinary crisis, most people tend to be selfish, jealous, arrogant, and revengeful, but this is a crisis that teaches us to think, consider and respect others as better than ourselves with our gentle smile, kind words, loving touch and sincere love. No doubt, together we can heal and will weather the storm with Better **Awareness** of this disease along with Positive **Attitudes** and Best **Practices** with precautions towards helping the poor and marginalized to prevent the spread of the causative virus. Meanwhile we may lose courage and strength but "let us not grow weary in doing good, for in due season we shall reap, if we do not lose heart" (Gal.6:9). Yes, this is the approach many of the doctors, nurses, health workers and social workers have practiced during the Covid-19 Pandemic season.

During these times, it is also important to be generous in many ways. To be there for others, being present with your presence, focusing on other people and prioritizing their needs before our own. To be on a positive note, in this time of crisis, we must realize how blessed we are to have certain people in our lives and be able to work peacefully, also engaging in other activities that we may not otherwise be able to do. Corona has taught us many lessons and novel means of relating and interacting. We have to be vigilant, but not to be afraid in our struggles.

In the end, I think that we can also effectively use this time to reflect on who we are, who we want to be, and work on becoming that person every single day. Ultimately, we must strive to be better each day than we were the day before. In this way we can realize the value that each moment brings to our lives and to our ability to change ourselves, transform and heal the world around us, thus the situation of ours will be turning **'From Corona to Courage'**.

My sincere appreciation to the Director of Suchetna, Asst. Director, Staff, Coordinators, Animators, Tutors and Volunteers whose untiring enthusiasm, spirit- filled commitment, hard work and team work made it possible to become **'Suchetna'** as it is today. God Bless us all.

Stay Safe, Healthy and Blessed!

CAPACITY BUILDING

“To ensure good health: eat lightly, breathe deeply, live moderately, cultivate cheerfulness, and maintain an interest in life” - Joseph Pilates

Along with the Primary Health Centre, Auxiliary Nursing, Midwifery and Diocesan Health Centres, Suchetna held general health camps and eye camps in all its sub-centers. Home remedies are prepared by herbs in all the targeted villages. Women have initiated herbal gardens in their houses. They use it to make herbal medicine for their personal and family use. These medicines are used for treatment of diseases like leucorrhoea disease, sugar and arthritis. SAKHI project also initiated Healthy cooking and Tiranga food training for Adolescent girls and the regular health checkups and records are maintained.

Women Empowerment

"We need women at all levels, including the top, to change the dynamic, reshape the conversation, to make sure women's voices are heard and heeded, not overlooked and ignored" - Sheryl Sandberg

Empowerment is about strengthening the capacity of people to exercise their rights, either as individuals or as members of a community, by engaging their own efforts.

Through Suchetna's intervention, women at the rural and urban levels are able to collectively participate in Panchayats, monitor issues related to literacy, health, nutrition, legal rights, gender equality and the environment.

Women have gained a respectable place in the family due to their economic progress. Their support has become essential in important family matters. Along with economic uplift, they have also made their presence felt at the political level. Many women became Pradhan, Sarpanch and village leaders.

Kishori Empowerment

"By empowering a woman, we empower a child. By educating a girl child, we make it possible for her to grow up to become an empowered woman"
- Winnie Byanyima

In the rural communities, adolescent girls are often at risk of malnutrition, early school dropout, child marriage, unwanted pregnancy, HIV, social distortions and gender based violence.

Our programs have reduced child marriages, gender inequality, domestic violence and increased their literacy level. Through skill development programs, they have learned to do the savings.

Rags... to Bags

Suhana is a young girl of age 20 years belongs to Dolak Basti, spends few hours in the early morning every day to collect Rags from the Kathgodam area. This brings daily income for her family. Then she attends the tailoring classes for two hours and non formal education for 2 hours regularly in her locality run by SUCHETNA through the help of Caritas India and IGHC. Apart from this, SUCHETNA staff have been giving various awareness classes on importance of personal hygiene and sanitation, different ways to improve the personalities, bad effects of drugs, leadership qualities, moral values, safe environment and Girls rights. She got opportunity to learn to write and read basic things, develop her talents and skills by participating in various cultural programmes and competitions.

She has been regular for classes and is learning tailoring with much interest and also participated in all the awareness programmes. She has already prepared good model dresses of girls and children.

Like other young girls of this community she was applying the makeup of PENDRUM cream on her checks to look beautiful which is very cheap and available in pathways. This cream had very bad side effects to the skin of her face. The face became very pink and the skin was coming out. She had been practicing it over 10 years. The staff members of SUCHETNA had been motivating and encouraging her from last few months to stop using this cream on her face.

Slowly with much conviction and courage, Suhana has stopped using this PENDRUM cream on her face since 9 months. The skin of her face is come to normal and glowing. Above all she has enhanced self confidence, courage to take decision for her life and become self-reliant. Her sharing of experience helped other girls to give up using this type of cream and to have good conduct. Suhana is grateful to Suchetna family for motivating and empowering, moulding and shaping her to live a meaningful and happy life.

Thrill through Skill

I send you greetings, Namaste to you all. My name is Gyamati and I live in Gadaria Village, near Lalkuan- Rudrapur block. I belong to a very poor family. After six months of my marriage my husband died, so I went back to my house and remained with my parents. I was tensed, depressed and confused about my life. Even my parents did not want me to go out and mingle with others in the village. Many times I thought of ending up my life. Then I heard that SUCHETNA SOCAIL SERVICE CENTRE, had opened a tailoring centre named **EKTA TAILORING CENTRE** in our village. I was so happy to join this centre. I saw many girls like me attending trainings and meetings and seemed to be happy with each other. There were 15 adolescent girls including me.

The tutor, named Anita of this tailoring centre taught us the basic tailoring skills. We have learnt different type of stitches with hand and machine. The tutor also taught stitching the various dresses for female, like Blouse, Petticoat, Salwar Suit, Kameez, Sarara, Garara, Patiyala. We have also learnt buttoning and putting hooks, zipper etc.

During this training period we have also had classes on Protection of Environment, Cleanliness and hygiene, Home Remedies- herbal (use of plant and roots), Good manners, moral values, Leadership-qualities, Career guidance, Domestic violence/ Child marriage, Kitchen garden, Tiranga food.

All girls attending this training centre have completed their course successfully. After my training program I joined in the Ekta group and continued to be a Healthy SAKHI and participated in all the activities. I have renewed, refined, recharged and re-vitalized my life by being with other AGs in the group. We were also given chance to visit other villages to meet the adolescent girls and share our experiences there. We have also celebrated many festivals together and built up unity, cooperation and love for one another.

Our desire to learn stitching is being fulfilled by the support of SAKHI project and above all through Suchetna I was motivated, empowered, strengthened and acquired so much knowledge and information through various awareness classes/trainings and it encouraged me live a quality and healthy life, to have good conduct and to be self reliant. I earn Rs. 300-400 per day by stitching the clothes.

I thank SUCHETNA for providing me this training and support to our village through the generous financial Support of UKSVK.

You will be remembered always by us.

School Readiness Program

“Education is the most powerful weapon which you can use to Change the World” - Nelson Mandela

Looking at the pathetic condition of the Anganwadi centres (AWCs) in most of the villages in the target area, Suchetna has started 'School Readiness Program' in 160 villages directly covering 170 Anganwadies. Besides this in all the target villages of the diocese intervention is done in all AWCs by the field staff to ensure the development of children from 3 to 6 years of age.

11 Step Methodology, Teaching Learning Material, Strengthening of Mata Samities helps in innovative and creative teaching in these centres. From the Anganwadies all the children are motivated to join the regular schools.

At Haldwani Rajpura and Dolak Basti (Slum area) children are given bridge course for one or 2 years and encouraged to enrol in Primary schools.

Safe Environment to Save Life

“Stop fighting about who created the world and start fighting against people who are trying to destroy it”

- Anonymous

Efforts for environment protection has been integral part of the activities of Suchetna. In all the target villages people are motivated to plant saplings and take care of them. Saving environment is not just a simple activity anymore, it is a survival truth. Suchetna is motivating people on organic farming, vermi compost, organic pesticide, saving water and electricity and say no to plastic.

Supporting & Networking with 'Go Clean Go Green, Let's Make it Happen' a NGO at Haldwani, Suchetna is encouraging the School children in 40 schools of Haldwani, motivating almost 1600 children to be 'Environment Soldiers' and they in turn make Environment Guardians and Environment Neighbors.

We have got a vehicle to be used as 'Environment Ambulance' to create awareness in people and collect all the plastic from the houses, so that the garbage in Haldwani becomes plastic free. As soon as the situation improves from this Pandemic crisis, the work will begin.

Inclusive Development of Children & Youngsters with Disability

“The only Disability in life is a Bad Attitude”
- Scott Hamilton

For the past 12 years, with the support of Jan Vikas Samiti, Varanasi, Suchetna has been support-ing children and youth with disability under IDCYD program. This program ensures health, treatment, education, skills, employment and motivation for inclusion in the society for these children and youth.

At present Suchetna caters to 101 children and youth with Disability in 13 centres of the diocese. Some of these children have made commendable progress in their life with the support of Suchetna.

If there's a Will there is a Way

Mukesh was born on 09/06/2001. His family lives in Behjoiya village of Aonla, in Bareilly district. After 4 years of his birth Mukesh had an attack of high fever. He was brought to a local doctor, but started suffering with polio. After many treatments he did not get well. The family was much worried and sad because he was the eldest child. Mukesh could not walk without any support as he had polio on right lower limb. His mother expired when he was 6 years old. Gradually he began to walk with the help of walking stick. Then his father enrolled him in the village primary school.

When he was studying in class II in a Govt. School, in the year 2008, Mukesh met JVS-BDSSC team. He was enrolled in a Private School and arranged coaching classes for him. Programme Coordinator met his teachers and friends and talked with them, so that Mukesh will get support and cooperation from them for his studies. Gradually positive results began to emerge, but he was poor in studies. Programme Coordinator took him to a block level camp for persons with disability and there he was availed with a tricycle and crutches.

He failed in 10th class examination and as a result he lost his self-confidence and interest in studies. His father, teachers and Coordinator tried to motivate him to continue his studies. He did not show any interest in studies.

After some time Mukesh's father purchased a second hand Tractor. The Coordinator inspired him to learn to drive tractor. He got interest in driving the tractor and obtained licence in driving. At present he earns about Rs.9000/- to Rs.12,000/- during crop seasons.

Mukesh encourages other children and youngsters with disability to study and to take benefits from all the Government Schemes that support persons with disability. He plans and works on it for his future. BDSSC and Jan Vikas Samiti wish him good health and bright future.

Income Generation Program

"I'm living so far beyond my income that we may almost be said to be living apart" - Cummings

Income generation programs integrate a number of activities to help rural women and Adolescent girls gain basic financial literacy skills and use these skills to manage their profits from poultry and agricultural production programs.

Suchetna supports job creation by encouraging SHG members to invest their savings, Government subsidy, bank loans and inter loans for the development of small income generating enterprises.

Government Schemes

Knowing all the Government Schemes is one thing, but the beneficiaries must also know their purpose and importance of different schemes and understand a better chance of scoring high marks if and when they go through the purpose of each scheme and implement it for their good daily living.

Suchetna encourages beneficiaries to know about their eligibility and Government Schemes and avail benefits for the people in the remote areas. With our intervention and assistance the following Government Schemes were implemented in various target areas.

Number of people benefitted from government schemes

Celebrations/Important Events

“Celebrations are the punctuation marks that make sense of the passage of time; without them, there are no beginnings and no endings and it brings so much joy in the lives of others” - Anonymous

Suchetna encourages all target groups to celebrate National and International Days at village and centre level. Celebration of important days is the best means to create unity, peace, love and amicable atmosphere in the community. On this day special attention is given to knowledge exchange and platform sharing. All the participants enthusiastically participate in day celebration. Celebrating events and festivals in our Suchetna family has become an integral part of learning and building a strong cultural belief. Such celebrations bring the people closer to each other's traditions and cultural beliefs and develop respect and understanding for each other's customs and traditions.

COVID-19 Response

"We are called to see the face of Christ in the faces of those who suffer" - Pope Francis

Understanding and following the instructions of safety during the Pandemic, we informed, motivated all the staff members and implemented the instructions and worked in line with Government guidelines. With the help of Coordinators, Animators, SHG leaders, Village leaders and ward members we could identify deserving poor and needy families of our target areas in order to distribute dry rations, sanitizers, soaps and gloves.

The permission was sought from Concerned Authority, Military personnel and Police personnel for protection and safety while distributing the food items. Purchasing and transporting of DRY food items, packing and distribution to poor people was done by Coordinators, Supervisors, Animators and volunteers with the help of Government officials.

The Coordinators and Animators took responsibilities of keeping records, taking photos and maintaining accounts of the same. While distributing dry ration food items, hygiene items and creating Awareness, the staff members kept up the safety measures of Covid 19.

Quantitative Information of COVID Aid from Bareilly Diocese

No. of people reached out in the Diocese	1,06,196
No. of migrants reached in the Diocese	2,240
No. of dry ration kits distributed	12,210
No. of people fed in the Diocese Migrant travelers, Rag pickers and Differently abled	22,682
No. of Masks Prepared by Women & Kishoris	15,440
No. of Masks distributed	28,420
No. of Sanitizers distributed to people	6,951
No. of Hygiene kits distributed	
Soaps	4,343
Gloves	2,235
No. of Volunteers involved with COVID-19 Relief works	130

Capacity Building

Women and adolescent girls are trained on topics such as adopting livelihood resources, knowledge of the law, food processing, leadership development, gender sensitization human and legal rights, personality development, life skills, kitchen garden, herbal and home remedies, dish and hand wash. Through training programs, women have experienced that they have to make positive interventions in society to get their freedom and become self-reliant.

Creating Awareness helps to be proactive rather than reactive very specific to really break down and peel away the layers to get the beliefs that are influencing the behaviors people are showing.

The lack of proper communication of information, lack of information tools leads the public to ignorance. Taking cognizance of this, various awareness programs such as health, personal hygiene, clean environment, prevented homicide, gender sensitivity, prevention of female violence, child rights, rights and responsibilities, healthy cooking and awareness on Covid 19 and conducted workshops on subjects of Government schemes. After this effort, women and adolescent girls have made revolutionary changes in their lives and in social life.
